

The Process

1

Purchase Template & Customization

By purchasing the Template & Customization on the Good Roman Website, you will schedule your Zoom call with the Good Roman team, sign the agreement, and pay your invoice.

2

Create Wix Account

Wix is where Good Roman has created your website and where it will continue to be hosted as it is live online. You must have your own account in order to obtain your website.

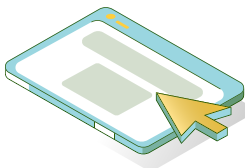

3

Download Template from ZIP File

After you have submitted your payment, you will receive an email with the ZIP File. This file will contain directions for use and the template file. Download the file on your computer and open the file for the template to upload to your WIX account as a new website!

4

Zoom Meeting

At time of purchase, you will choose a time to meet with us over Zoom. We will discuss the details of what you hope your website to look like and include. You will give us authorization to your website in order for us to access it and make the customizations for you. We will also explain the process of retrieving vital information from you for your website.

5

HoneyBook Questionnaire

We will send you a link to a questionnaire that will help guide our process of customizing your website. This is where you will send us vital information, such as pictures, videos, testimonials, your biography, etc.

6

Purchase Premium Wix Account

For Wix to continue hosting your account, you will need to purchase the Premium Account. This is ~\$210 per year so that your website will remain on the internet.

7

URL Purchased and Attached

We will go through the process of purchasing your URL for you and attaching it to your website! You can choose your own URL (www."mybusiness".com), and as long as that URL is not already owned by someone else, we will take care of the rest! If you need help on choosing a URL, we are here to help guide you through that process!

8

GO LIVE!

Your website is now LIVE! We hope you ENJOY sharing it with everyone!
